About Us

The SIFMA Foundation is dedicated to fostering knowledge and understanding of the financial markets for individuals of all backgrounds with a focus on youth. Drawing on the support and expertise of the financial industry, the SIFMA Foundation provides financial education programs and tools that strengthen economic opportunity across communities and increase individuals’ awareness of and access to the benefits of the global marketplace.

The Stock Market Game™ program is an online simulation of the global capital markets that engages students grades 4-12 in the world of economics, investing and personal finance, and prepares them for financially independent futures. More than 600,000 students take part every school year across all 50 states. The Stock Market Game has reached 18 million students since its inception in 1977.

The Capitol Hill Challenge™ is the nation’s only financial education program supported by 100% of Congress. This special edition of The Stock Market Game™ presented by the Charles Schwab Foundation and offered each spring matches Members of Congress with middle and high schools nationwide. Since its inception in 2004, Capitol Hill Challenge has engaged over 116,000 students. The top 10 teams win a trip to Washington, DC for a ceremony on Capitol Hill, to learn about fiscal policymaking, and to tour financial landmarks.

InvestWrite® national essay competition is a culminating activity for Stock Market Game students, extending what they have learned in SMG by challenging them to analyze, think critically and problem solve. Students address real-world financial issues and situations by answering a question about long-term saving and investing. Thousands of industry experts volunteer as essay judges each year.

Invest It Forward™ is an industry-wide financial education and capital markets literacy campaign convening hundreds of financial firms that are committed to giving young Americans a solid understanding of the capital markets system and the invaluable tools to achieve their dreams. Invest It Forward is designed to connect teachers and classrooms with financial industry professionals and firms through a variety of volunteer opportunities across the country and throughout the year.

Our Impact

Recent history has taught us just how important it is to have a fundamental understanding of saving and investing. The Stock Market Game has a significant and measurable impact on student financial capability and academic achievement across all grades.

An independent study by Learning Point Associates found students who participated in the SMG program scored significantly higher on mathematics tests than their peers who did not participate. They also found that teachers who taught SMG reported the program influenced them to engage in financial planning, research, and use of investment products and services.
