

# OPS2018

MAY 7-10 | JW MARRIOTT PHOENIX DESERT RIDGE | ARIZONA

## Exhibitor

**Booth 216 & 218**

Isn't It Time You Brought Your Company's Middle & Back-Office Into The 21<sup>st</sup> Century and Removed Your Company's Reliance On Batch Processing And Become Real-Time? ShadowSuite is the modern day alternative because it is NOT a legacy system like its competitors' systems. What competitor products do in their overnight batch cycle ShadowSuite does during the day because it speaks message-to-message with the industry utilities-DTC, NSCC, FundSERV, FICC, BNY Mellon, BMO Harris Bank, MBS, EPN, OCC, CME, SWIFT, Euroclear and OMGEO (OASYS, CTM, ALERT and TradeSuite)-throughout the day. True real-time exceptions based processing. ShadowSuite is the ONLY post-trade securities processing system that has fully integrated on ONE relational database ALL currencies, ALL asset classes, ALL financing transactions and ALL related functions like fees and commissions, corporate actions, dividends and interest, treasury and accounting, client and regulatory reporting. Consolidated data right out-of-the-box with 24 x 7 access and online historical research capabilities.
