JANUARY 30, 2018 | 2:00 - 6:00 PM | SIFMA CONFERENCE CENTER, NYC

General Session Audio Visual & Webinar

Sponsored by

Founded in New York in 2000, Matrix Applications is a fintech service bureau offering a suite of products and services for institutional fixed income clients. We work hands-on with our clients to identify an optimal service mix, from simple position management to complex settlement services.

We leverage our extensive technical experience, a deep network across the finance industry and a team of Operations, Regulatory and Legal gurus to deliver bespoke managed services for firms – big and small – worldwide. Every day. Without fail.

And since 2012, Matrix has offered the MarginCalculator.com service, helping firms manage their margin requirements for forward-settling transactions in the MBS market to comply with the TMPG recommendation and FINRA Rule 4210.
