FSDA: Strength in Numbers

The core of the FSDA organization is advocacy and education: It is our goal to effectively represent and empower all segments of the securities industry and Florida investors.

The FSDA board of governors is comprised of volunteers from industry organizations with both voting and non-voting advisory positions. The board represents some of the most seasoned, highly trained and brightest minds in their respected fields, bringing a wealth of experience to the FSDA. The FSDA has earned the trust and support of our members, as well as our state legislators and regulators. As a respected organization representing the securities industry, the FSDA offers our members a unified voice impacting and influencing regulation and legislation affecting our industry and the clients we serve. Since it began active lobbying in 2004, the FSDA has achieved an impressive record of successfully representing the industry regarding the state government's agenda on securities-related statutes, rules and regulations.

The FSDA organizes conferences, workshops, and seminars developed specifically with industry professionals in mind. These educational opportunities are offered to our members, industry professionals, legislators and the investing public throughout the state of Florida.

“Since 1933, FSDA has been the voice of the securities industry in Florida. It is our mission to advocate on behalf of the industry, and provide education opportunities for our members and Florida’s investing public.” — FSDA

FSDA'S COMMITMENT TO OUR MEMBERS

The FSDA is dedicated to the singular mission of ensuring the success of our members and the protection of Florida's investing public. From the smallest firm in the state to the largest national companies in the country, the FSDA strives to provide each and every member the opportunity to thrive in today's ever-changing environment. By joining the FSDA, you gain the power of being a part of one of the country's oldest, largest and most respected state securities associations providing a voice for the industry.
