The Single Security is a joint initiative between Fannie Mae and Freddie Mac (the Enterprises), under the direction of FHFA, to develop a single mortgage-backed security. The Enterprises will align key components of Fannie Mae's mortgage-backed securities (MBS) and Freddie Mac's participation certificates (PCs). The goal is to bring additional liquidity and fungibility to the "To-Be-Announced" (TBA) market and to reduce or eliminate the trading disparities that exist today between the Enterprises' TBA securities. The components of the Single Security initiative include aligning (1) key features, which will mainly follow Fannie Mae's MBS structure; (2) investor disclosures, which will generally follow Freddie Mac's PCs; and (3) certain policies and practices related to the removal of loans from securities. In addition, the Single Security effort will allow investors to exchange their legacy 45-day Freddie Mac Participation Certificates (PCs) for new 55-day Single Securities issued by Freddie Mac. The new uniform MBS, "UMBS," will be issued by both Enterprises. The go-live date is June 3, 2019 and forward trading has already commenced. Please stop by the Single Security booth to learn more, ask questions and determine your firms' and/or your clients' readiness. You don't want to be left behind!
