THANK YOU TO OUR SPONSOR

InvestorCOM

InvestorCOM is a leading provider of regulatory compliance software and communications solutions for wealth management. Our innovative suite of FinTech solutions were developed in response to increasing regulation and the demand for more effective communication and disclosure from the financial services industry.

For more than 20 years, InvestorCOM has been providing regulatory compliance pain relief for global wealth managers. Our compliance platform for Reg BI and Client Focused Reforms is well suited to satisfying the principles set out by regulators and supports the key categories of disclosure and record-keeping, adviser and process oversight, and investment product selection and monitoring.

This includes ShelfMonitor for dealers to manage and monitor their ever-changing product shelf, PeerCompare for advisors to make compliant investment recommendations and to demonstrate they are acting in the best interest of retail clients, and ComplianceExpress to simplify the document disclosure and delivery process.
